SUMMARY

Full Stack Developer with a strong foundation in the MERN stack. Experienced in building real world web applications from scratch including a data analytics platform and a productivity social media app. Currently pursuing BTech while actively developing projects and expanding my technical skill set.

WORK EXPERIENCE

Full Stack Developer Intern , Zidio Development

Jun2025 - Aug2025 Remote

- Built an Excel analytics web application allowing users to upload spreadsheets and visualize data through interactive charts and dashboards.
 - Developed the frontend interface using React and Tailwind CSS - Built backend file parsing logic to handle .xlsx file uploads.
 - Integrated dynamic chart rendering for instant data visualization
-

PROJECTS

Dailist - A Productive Social Media

- Developed user authentication, post creation, habit logging and a real time feed with a clean responsive UI using React and Tailwind CSS.
- Designed a REST API with Node.js, Express and MongoDB to handle user data, calendar tracking and real time Socket.io events.

Bidding Game - An IPL Bidding Game

- Built a real time IPL player bidding game with live auction rooms, countdown timer, leaderboard and wallet system using Socket.io.
 - Developed dynamic auction rooms where multiple users compete in real time to bid on IPL players with a clean responsive UI using React and Tailwind CSS.
 - Designed a REST API with Node.js, Express and MongoDB to handle user wallets, player data, live bid events and leaderboard tracking.
-

EDUCATION

Sep 2024 - Oct 2028

Bachelor of Technology (BTech CSE-AI)

PSIT | Kanpur, India

- BTech Computer Science student building real world projects alongside academics, focused on web development and system design.
-
